

ultra-mate

Ultra Conditioning High Alkaline Dishmachine Detergent

Product Properties

COLOR: White Powder
ODOR: Chlorine
pH: 14
FOAMING: None
DETERGENCY: Excellent
HARD WATER TOLERANCE: Excellent

Description

This ultra-premium, chlorinated dishmachine detergent routinely powers away the most difficult food soils including grease, fats, oils, protein and food stains. Excellent results are obtained in even the most difficult water conditions of high hardness and TDS (total dissolved solids). This detergent is appropriate for use on fine china, glass, crystal, silver, stainless and alkali resistant plastic kitchen tableware. Packaged in an auto-feed capsule for optimum use-control and safety.

Directions

This product is not designed for use on soft metals such as Aluminum or Pewter. Soft metals or delicate ware items should be washed using an appropriate metal safe detergent. This product is for use in capsule feeder dispenser only. DO NOT use this product in conventional water-filled reservoir systems. Remove the cover from the capsule and turn it over, placing it in the dispenser screen side down. DO NOT REMOVE SCREEN CAP FROM THE CAPSULE. Remove and replace capsule when completely empty by turning screen side up and using cover from new capsule to close empty capsule.

Safety Information

KEEP OUT OF REACH OF CHILDREN

DANGER

CORROSIVE. CAUSES BURNS TO SKIN AND EYES. CONTAINS SODIUM HYDROXIDE AND ALKALINE DETERGENT BUILDERS. Avoid contact with skin and eyes. In case of contact with eyes, immediately flush with plenty of water for 15 minutes and seek immediate medical attention. For skin, flush with water followed by a mild vinegar solution. Seek medical attention if irritation persists.
