

so sour II

IRON & MINERAL REMOVING SOUR

Product Properties

COLOR: Colorless
ODOR: Acidic
pH: 2.0
SPECIFIC GRAVITY: 1.08
FOAMING: None
ACTIVE AGENTS: Organic and Inorganic Acids

Description

Alkaline break or heavily built detergents used in commercial multi-component systems leave alkaline residues on fabrics which require use of a sour in the final rinse cycle for best results. Additionally, iron or fine rust in laundry process water can cause spotting and discoloration. Regular use of this product will counteract iron discoloration, as well as restoring natural fabric pH and increasing the effectiveness of softeners, starch and sizing used in the final rinse cycle.

Features...Benefits

Fast ActingLabor Saving
Effective Stain RemovalEasy to Use
Removes Unsightly StainsSaves Linen Costs
Low OdorPleasant to Use

Directions

Place dispenser pickup tube in container. Product will be automatically injected during the sour/soft cycle. Follow instructions on your Laundry Procedures and Drying Guidelines posters. Consult your Service Representative for additional application information.

Safety Information
