

break

LIQUID LAUNDRY BUILDER/BREAK

Product Properties

COLOR: Colorless to light yellow liquid
ODOR: None
VISCOSITY: Thin
pH: 12 - 13
SPECIFIC GRAVITY: 1.23
FOAMING: None
DETERGENCY: Excellent

Description

New advanced technology in liquid detergent builder systems is incorporated into this powerful laundry break to deliver amazing performance in multi-component systems. Heavy and troublesome soils are solubilized and suspended along with scale-forming water hardness, thereby boosting the efficiency and cleaning power of the liquid detergent.

Features...Benefits

Concentrated	Economical
Improves Detergent Performance	Labor Saving
Makes Soils Soluble	Labor Saving
Buffered Formula	Saves Linen Costs
Extra Alkaline	Improved Performance

Directions

This powerful builder/break is formulated only for multi-component automatic dispensing systems where tough troublesome laundry problems exist and is NOT RECOMMENDED for fine or delicate fabrics. **AUTOMATIC DISPENSING SYSTEMS** should be programmed to deliver builder/break with water at the rate of 5 oz. per 100 pounds of dry linen.

Since the builder is powerful enough to leave alkaline residues on fabric, a neutralizing sour should be programmed into the rinse cycle following the wash cycle to restore the fabric's neutral pH and hand prior to or during the softener rinse, depending on the system used. Consult your Sales Representative for specific instructions and applications set up.
