

ClearlyBetter

SMART FLOORS DAILY CLEANER

SMART DRAINS & FLOORS

Better, Smarter, Cleaner

Product Properties

- COLOR: Clear, Green
- ODOR: Fresh
- pH: 8.5
- SPECIFIC GRAVITY: 1.008
- SOLUBILITY IN WATER: Complete
- DETERGENCY: Excellent

Description

This new generation foaming cleaner and degreaser is specifically designed for use on quarry tile floors. Utilizing the latest cleaning technology, this product employs bioactive enzymes to digest oils and food soils without the use of harsh caustic chemicals. Its powerful surfactants and builders help penetrate the pores in quarry tile, terrazzo, marble and grout, carrying the bioactive enzymes along to accelerate cleaning. As the bioactive enzymes digest food soils, they reduce odor caused by decay. Also, the bioactive enzymes reduce slippage as they digest the oils and greases that make quarry tile slick. As an added benefit, as excess product is flushed down the drain, the bioactive enzymes go to work on soils and greases present in the drain. Floors cleaned with this product provide positive traction and result in a cleaner, safer work environment.

Features...Benefits

- 1 packet/mop bucket Use Dilution.....Highly Economical
- Bioactive Enzymes.....No Harsh Caustics
- Concentrated Surfactants.....Unparalleled Cleaning Power
- Improves Traction.....Safer Work Environment
- Brightens Grout Lines.....Improved Sanitation Perception
- No Rinse Formula.....Labor Savings

Directions

For daily cleaning of quarry tile or other porous flooring: dilute one packet of product per mop bucket of warm water. Apply solution liberally onto floor surface with a mop and allow solution to stand on floor surface until solution penetrates soils. Agitate floor surface with mop. For heavily soiled areas use deck brush or machine scrub as needed. Squeegee excess solution toward floor drain. Discard mop water down drains to reduce grease build up and eliminate odors.
