

All-Temp Rinse Additive

MULTI TEMPERATURE RINSE ADDITIVE

Product Properties

COLOR: Blue Liquid
ODOR: Pleasant
VISCOSITY: Thin
pH: <4
SPECIFIC GRAVITY: 1.012
WETTING: Excellent
SOLUBILITY IN WATER: Complete
HARD WATER TOLERANCE: Excellent

Description

This concentrated rinse additive is specially formulated for use in both low and high temperature dishmachine applications. Special conditioning agents reduce surface tension to provide rapid draining and rinsing.

Controlled foam formula works over a wide temperature range and counteracts spotting caused by water impurities and dissolved solids. Compatible with both quaternary ammonium and chlorine sanitizers at use concentrations.

Features...Benefits

Concentrated	Economical
Speeds Drying	Labor Saving
Prevents Spotting	Labor Saving
Hard Water Effective	Improved Performance
Foam Controlled	Improved Performance

Directions

Place pickup tube from dishmachine dispensing system into container. Product will be automatically injected during the rinse cycle. Follow instructions on your Dishmachine Procedures poster or consult your Service Representative for additional application information.

Refer to Product Label and SDS for Additional Information.
